CLEANING

>>
Since 2000, B/S has focused on the design and manufacture of building material, offering solutions for Architectural, Structural and Decorative needs. B/S is dedicated to the environmental sustainability of buildings by providing innovative highly functional architectural materials and products while minimizing environmental impact.

We help meet the unique requirements of building material, providing you with solutions to questions such as:

How to help architects both functionally and aesthetically?

How to minimize the cost of design, installation and maintenance?

How to fit the construction products in harmony with our living and working environment?

SELECTION GUIDES

B/S Metal Floor Grate Systems are semi open roll-up entrance mats which are ideal for high profile projects and are available in both shallow grid or deep grid models and are suitable for interior and exterior use. Dirt and moisture collect underneath the grate surface to keep floors clean and reduce maintenance.

B/S entrance matting systems are available in several colours, styles and combinations.

B/S entrance matting is designed for internal or external use, entrance with high volume pedestrian traffic, safe for walking aids, wheelchairs and trolleys.

Category	Side Elevation	Features	Slip Resistance (0-10)	Scraper (0-10)	Moisture Removal (0-10)	Page
Entrance Matting Elegant		EM-Elegant is a grid matrix mat that has the ability to retain its elegant appearance whilst handling high volume traffic. The matting can be rolled up for cleaning and maintenance of the recess.	 9	 9	 9	05-06
Floor Grate Innovation		FG-Innovation is available in shallow grid, low profile or deep pit grid. Dirt and moisture collect underneath, the surface to keep floors clean and reduce maintenance, and rails can be replaced without dismantling the entire grid system.	 9	 8	 9	07-08
Floor Matting Classic		FM-Classic can be specified in any arrangement of rubber rib, nylon brush, cassette fibre bonded or tufted nylon insert strips for a versatile finish from outdoor areas through to interior applications.	 8	 8	 9	09-10
Floor Mats Low Profile		FM-Low Profile is an entrance mat without towropes or connectors, allows to cut the profiles in the place of installation, if necessary and to make appropriate adaptations.	 7	 6	 5	11-12
Metal Entry Grating Luxurious		Metal gratings for commercial or industrial entrances that are made of aluminum or stainless steel without any carpeted or vinyl inserts.	 8	 7	 7	13-14
Click Entrance Matting DIY		CEM-DIY is an entrance matting system composed of aluminum profiles with a carpet, plastic or brushes insert with the possibility of choosing between several colors.	 8	 7	 6	15-16
Modular Matting Design		MM-Design modular and interlocking matting trap dirt at the door. These snap-together mats aggressively clean dirt and moisture from guest's shoes. These flooring products are also easy to install, each piece fits together to create a truly "seamless" finish.	 9	 7	 8	17-18
Barrier Matting Tiles Popular		BMT-Popular, easy to install modular tile for recessed well application. High performance, flexible tiles with a vinyl base and dual fibre carpet strips scrape, remove and capture dirt and moisture.	 9	 8	 8	19-20

Entrance Matting

Elegant...

EMELG

EMEC

EMER

EMEDG

EMES

EM-Elegant is a grid matrix mat that has the ability to retain its elegant appearance whilst handling high volume traffic due to the collection grid layout that channels the debris down beneath the contact surface.

The matting can be rolled up for cleaning and maintenance of the recess. Built on a platform of high specification extruded aluminum treads, the matting is assembled by means of a PVC hinge which features an integral damper strip.

EMEV

Product Features

- Structure: Aluminum 6063-T5 (anodized).
